Professional Summary

Electrical & Electronics Engineering student with practical exposure to power distribution, industrial automation, embedded systems, IoT and computer vision. Experienced with ESP32, Raspberry Pi, sensors, PLC/SCADA fundamentals and engineering software through projects, internships and hackathons.

Education

Sri Venkateswara College of Engineering – B.E. Electrical & Electronics Engineering *Sept 2024 – Jun 2028*
CGPA: 8.39/10 (Up to 4th Semester)

Internship

Student Intern–Schwing Stetter, Sriperumbudur

- Gained practical exposure to electrical design and electrical control systems in an industrial environment.
- Observed electrical control and automation practices used in industrial machinery and systems.

Student Intern–Chennai Metro RailLimited, Chennai

- Gained exposure to metro power distribution, transformers, relay protection, switchgear, circuit breakers and busbar systems.
- Observed overhead traction power systems, pantograph operations, SCADA and electrical safety practices.

Projects

Smart Attendance System – iCUBE Hackathon Winner

- Built an IoT-based computer-vision attendance system with real-time, period-based attendance, database manage-ment and reporting.
- Tools: Python, OpenCV, MediaPipe, SQLite, Raspberry Pi.

Smart Track Safety System – SIH Hackathon Project

- Built a system to detect broken overhead transmission lines and designed an automation-based fault-detection and alert mechanism.
- Tools: ESP32, Sensors, Embedded Systems

Adaptive Quiz AI Platform

- Developed an adaptive testing platform with backend logic that adjusts question difficulty using accuracy and response time.

Diabetic Retinopathy Detection System

- Developed an AI model for retinal fundus-image analysis using deep learning and lesion detection.

Technical Skills

Programming :	C, Java,python(Basic),C++(Basic)
Electrical :	PowerDistributionSystems,Transformers,Switchgear&Protection,MotorControlBasics
Embedded&IoT :	ESP32, RaspberryPi, Sensors, Embedded Systems,Arduino
Industrial:	PLC, SCADA, TIAPortal, Industrial Automation
AI / Computer Vision :	OpenCV, MediaPipe, YOLOv8, EfficientNetB3, ONNX
EngineeringTools :	AutoCAD, MATLAB, Tinkercad, EPLAN, Fusion360, KiCad
Development / DB :	SQLite, FastAPI, Supabase, React, Vite, Tailwind CSS
Design & Media :	Canva,Adobe Express,Capcut,Social Media Content,Graphic Design

Leadership & Activities

Chief Design Officer, E-Cell – SVCE | Executive Director, Science Club – SVCE | Deputy Secretary, BIS Students Chapter – SVCE
